Prenatal-to-3 State Policy Roadmap

The prenatal to age three period of development sets the foundation for all future health and wellbeing. The science is clear: infants and toddlers need loving, stimulating, stable, and secure care environments, with limited exposure to adversity.

This Prenatal-to-3 State Policy Roadmap is a guide for your state to:

- **IMPLEMENT** the most effective state-level policies and strategies to date that foster these nurturing environments,
- **MONITOR** your state’s progress toward adopting and fully implementing these effective solutions, and
- **MEASURE** the wellbeing of infants and toddlers in your state.

### Prioritize your state’s SCIENCE-BASED POLICY GOALS

To promote optimal health and development of infants and toddlers

8 comprehensive prenatal-to-3 (PN-3) policy goals driven by the science of the developing child set the direction for each state to ensure infants and toddlers get off to a healthy start and thrive.

### Adopt and implement EFFECTIVE POLICIES & STRATEGIES

To improve PN-3 goals and outcomes

5 state-level policies and 6 strategies positively impact at least one of these PN-3 goals, based on comprehensive reviews of rigorous policy research. Our goal is to continually expand the evidence base by evaluating and sharing the innovative approaches that states are implementing to positively impact child and family wellbeing. The 11 policies and strategies included in this State Policy Roadmap are not the only effective solutions that strengthen the prenatal-to-3 period, but they are the solutions with the strongest evidence of effectiveness, to date.

### Monitor your STATE’S PROGRESS toward adoption & implementation of effective solutions

Effective solutions are not implemented similarly across all states, leaving children and families across the US with a patchwork of benefits and unequal outcomes. Monitor state progress toward adopting and implementing effective solutions that serve all eligible children and families.

### Track OUTCOMES TO MEASURE IMPACT on optimal health and development of infants and toddlers

20 child and family outcome measures illustrate the health, resources, and wellbeing of infants, toddlers, and their parents in your state, and reveal progress toward achieving the 8 PN-3 goals.

Learn more about the Prenatal-to-3 State Policy Roadmap at pn3policy.org.
District of Columbia's Prenatal-to-3 State Policy Roadmap

The chart illustrates how the 5 policies and 6 strategies impact the prenatal-to-3 policy goals. Each column represents a PN-3 goal. The filled circles within each column indicate the policies and strategies that impact that PN-3 goal. Filled circles with a check mark indicate that your state has implemented the effective policy or strategy. Your state should work to check all of the circles in the columns.

### Effective Policies

- **Expanded Income Eligibility for Health Insurance**
- **Reduced Administrative Burden for SNAP**
- **Paid Family Leave**
- **State Minimum Wage**
- **State Earned Income Tax Credit**

### Effective Strategies

- **Comprehensive Screening and Referral Programs**
- **Child Care Subsidies**
- **Group Prenatal Care**
- **Evidence-Based Home Visiting Programs**
- **Early Head Start**
- **Early Intervention Services**

### Measures Progress

- **Health Insurance Access to SNAP Developmental Screenings**
- **Parental Employment**
- **Child Poverty Crowded Housing Food Insecurity**
- **Preterm Births Low Birthweight Infant Mortality**
- **Maternal Mental Health Parenting Support**
- **Daily Reading Daily Nurturing Behaviors Parenting Stress**
- **Child Care Providers Participating in QRIS Access to EHS**
- **Breastfeeding Immunizations Child Maltreatment**

---

**GOALS**

To achieve a science-driven PN-3 goal:

**POLICIES**

Adopt and fully implement the **effective policies** aligned with the goal.

**STRATEGIES**

Make substantial progress relative to other states toward implementing the **effective strategies** aligned with the goal.

**OUTCOMES**

Measure progress toward achieving the PN-3 goal.
### District of Columbia Needs to Strengthen its Prenatal-to-3 System

#### 4 Steps to Strengthen District of Columbia’s Prenatal-to-3 System

**Prioritize, Implement, Monitor, Measure:** To build a system to ensure all children get off to a strong start and thrive, your state should follow these 4 steps:

**STEP 1. PRIORITIZE your state’s prenatal-to-3 policy goals based on the wellbeing of your state’s infants, toddlers, and parents.**

To develop a strong and equitable prenatal-to-3 (PN-3) system of care and ensure the infants and toddlers in your state thrive, your state will ultimately need to achieve all of the 8 science-driven policy goals. In the short term, states often need to prioritize policy goals based on the health and wellbeing of your state’s children and families.

To help your state prioritize its policy goals:

1. Use your state’s Roadmap chart on page 2 to identify the PN-3 goals for which your state is currently not implementing each of the effective policies or strategies that are aligned with that goal (the filled dot does not have a check mark), and
2. Use the outcome measures in step 4 to determine the areas in which infants, toddlers, and their parents are lagging in your state. Reducing racial and ethnic disparities in outcomes should be an overarching goal for your state. For more information on racial and ethnic disparities in outcomes, see the complete Prenatal-to-3 State Policy Roadmap at pn3policy.org.
STEP 2. ADOPT AND IMPLEMENT effective policies and strategies aligned with your state’s policy goals.

5 effective state-level policies and 6 effective strategies positively impact the prenatal-to-3 policy goals. These effective solutions are not available in all states, leaving children and families with a patchwork of benefits and unequal outcomes. Ultimately, each state should implement all of the 11 effective solutions and evaluate additional policies to build the evidence base.

### POLICIES
**Adopted and Implemented Effective State-Level Policies**

- Expanded Income Eligibility for Health Insurance
- Reduced Administrative Burden for SNAP
- Paid Family Leave
- State Minimum Wage
- State Earned Income Tax Credit

**District of Columbia**

5 out of 5

### STRATEGIES
**Implemented Effective State-Level Strategies**

- Comprehensive Screening and Referral Programs
- Child Care Subsidies
- Group Prenatal Care
- Evidence-Based Home Visiting Programs
- Early Head Start
- Early Intervention Services

**District of Columbia**

0 out of 6

### POLICIES
**Adopted and Implemented Policy Count by State**

- 0 out of 5: FL, GA, MS, NC, SC, TX, WY (7 States)
- 1 out of 5: AL, ID, MO, NV, NH, ND, OK, SD, TN, UT, WI (11 States)
- 2 out of 5: AK, AZ, DE, IN, IA, KS, KY, LA, MI, MT, NE, OH, PA, VA, WV (15 States)
- 3 out of 5: AR, CO, HI, MD, NM (5 States)
- 4 out of 5: CT, IL, ME, MA, MN, NY, OR, RI, VT, WA (10 States)
- 5 out of 5: CA, DC, NJ (3 States)

### STRATEGIES
**Implemented Strategy Count by State**

- 0 out of 6: AL, AK, AR, DC, FL, HI, ID, MS, NE, NV, ND, SD, TN, VA, WY (15 States)
- 1 out of 6: AZ, CO, CT, DE, GA, IN, KS, KY, LA, MD, MA, MI, MT, NH, NM, OH, PA, RI, SC, UT, VT, WA (22 States)
- 2 out of 6: IL, IA, MN, MO, NJ, NY, NC, TX, WV, WI (10 States)
- 3 out of 6: CA, ME, OK, OR (4 States)
- 4 out of 6: No States
- 5 out of 6: No States
- 6 out of 6: No States

See the complete Prenatal-to-3 State Policy Roadmap and Prenatal-to-3 Policy Clearinghouse for detailed information on the impact these policies and strategies can have on the policy goals.
STEP 3. MONITOR your state’s progress toward policy adoption and implementation.

Policy adoption and implementation does not happen quickly. States often consider legislation for several sessions before adopting it, and states often delay implementing policies for longer still. This Roadmap identifies the progress your state has made toward adopting and fully implementing each of the 5 effective policies and illustrates the progress your state has made relative to other states toward implementing the 6 effective strategies that improve the prenatal-to-3 policy goals. Additional information is provided on the generosity of your state’s policies relative to other states, and whether your state is serving all children and families who are eligible.

For your state, ask:
1. Has our state adopted and implemented the 5 effective policies and 6 effective strategies that positively impact the prenatal-to-3 policy goals?
2. If not, what progress has our state made toward adoption and implementation?
3. Are our state’s benefits for the policy or strategy as generous as other states?
4. Are all eligible families in our state receiving the benefits they need?

Has your state adopted and fully implemented these effective policies and strategies?

### POLICIES

**Expanded Income Eligibility for Health Insurance**

Has District of Columbia adopted and fully implemented the Medicaid expansion under the ACA that includes coverage for most adults with incomes up to 138% of the federal poverty level? Medicaid expansion increases access to needed services, improves financial wellbeing, reduces racial disparities in adverse birth outcomes, keeps children safe, and has mixed impacts on parent health.

<table>
<thead>
<tr>

<th>NO</th>
<th>SOME PROGRESS</th>
<th>YES</th>
</tr>
</thead>
<tbody>
<tr>
<td>5 states</td>
<td>4 states</td>
<td>3 states</td>
<td>2 states</td>
</tr>
</tbody>
</table>

- Medicaid income eligibility for parents (in a family of three) as a % of the federal poverty level
  - 221% DC
  - 17% Worst state
  - 22% Best state

- % of low-income women of childbearing age who do NOT have any health insurance coverage
  - 6.4% DC
  - 47.7% Worst state
  - 5.4% Best state

District of Columbia

Yes, and the state adopted and implemented Medicaid expansion to additional populations.

37 states have adopted and fully implemented

See the complete Prenatal-to-3 State Policy Roadmap for detailed information about the impact of each policy and strategy and Methods and Sources for related data sources at pn3policy.org.
## POLICIES

### Reduced Administrative Burden for SNAP

Has District of Columbia adopted and fully implemented a median recertification interval for SNAP of 12 months or longer, among households with SNAP-eligible children under age 18? Reduced administrative burden increases SNAP participation rates, which lowers food insecurity among children and families.

<table>
<thead>
<tr>
<th>REGRESSIVE</th>
<th>NO</th>
<th>SOME PROGRESS</th>
<th>YES</th>
</tr>
</thead>
<tbody>
<tr>
<td>12 states</td>
<td></td>
<td>7 states</td>

</tr>
</tbody>
</table>

**Median recertification interval length for households with SNAP-eligible children under age 18**

- **12 Months**

**% of eligible families with children under age 18 NOT receiving SNAP**

- DC: 7.5%
- Worst state: 26.7%
- Best state: 2.0%

### Paid Family Leave

Has District of Columbia adopted and fully implemented a paid family leave program of a minimum of 6 weeks following the birth, adoption, or the placement of a child into foster care? Paid family leave increases access to paid time off from work, reduces racial disparities in leave-taking, boosts maternal labor force attachment, improves maternal mental health, fosters better child-parent relationships, and supports child health and development.

<table>
<thead>
<tr>
<th>REGRESSIVE</th>
<th>NO</th>
<th>SOME PROGRESS</th>
<th>YES</th>
</tr>
</thead>
<tbody>
<tr>
<td>29 states</td>
<td>1 state 12 states 1 state 3 states</td>
<td>5 states</td>
<td></td>
</tr>
</tbody>
</table>

**Maximum number of weeks of paid family leave benefit**

- 8 weeks

**Maximum paid family leave benefit value**

- $1000

---

*See the complete Prenatal-to-3 State Policy Roadmap for detailed information about the impact of each policy and strategy and Methods and Sources for related data sources at pn3policy.org.*
State Minimum Wage

Has District of Columbia adopted and fully implemented a minimum wage of $10 or greater? A state minimum wage of at least $10 reduces poverty, especially for Black and Latinx individuals, increases family incomes with minimal to no adverse effects on employment, improves birth outcomes, and keeps children safe.

<table>
<thead>
<tr>
<th>REGRESSIVE</th>
<th>NO</th>
<th>SOME PROGRESS</th>
<th>YES</th>
</tr>
</thead>
<tbody>
<tr>
<td>9 states</td>
<td>2 states</td>
<td>10 states</td>
<td>3 states</td>
</tr>
</tbody>
</table>

District of Columbia has adopted and fully implemented a state minimum wage of $15.00, which is the best among states.

State Earned Income Tax Credit

Has District of Columbia adopted and fully implemented a refundable state earned income tax credit (EITC) of at least 10% of the federal EITC for all eligible families with any children under age 3? A state EITC promotes healthy births, reduces racial disparities in birth outcomes, and has mixed impacts on employment and income.

<table>
<thead>
<tr>
<th>REGRESSIVE</th>
<th>NO</th>
<th>SOME PROGRESS</th>
<th>YES</th>
</tr>
</thead>
<tbody>
<tr>
<td>9 states</td>
<td>8 states</td>
<td>2 states</td>
<td>3 states</td>
</tr>
</tbody>
</table>

District of Columbia has adopted and fully implemented a refundable EITC with a value of 40% of the federal EITC, which is the best among states.
Several states are experimenting with alternative methods to establish base reimbursements, because it is widely accepted that the federal recommendations are insufficient to meet the actual cost of quality care. Currently, states’ progress toward meeting the federal recommendations is the only information available nationally. For more information on strategies to improve child care quality, see the complete Prenatal-to-3 State Policy Roadmap at pn3policy.org.

**STRATEGIES**

### Comprehensive Screening and Referral Programs

Has District of Columbia made substantial progress implementing comprehensive screening and referral programs by implementing both evidence-based models: Family Connects and Healthy Steps? Comprehensive screening and referral programs increase families’ connections to needed services and have mixed impacts on children’s health and development.

<table>
<thead>
<tr>
<th></th>
<th>LITTLE TO NO PROGRESS</th>
<th>SOME PROGRESS</th>
<th>SUBSTANTIAL PROGRESS</th>
</tr>
</thead>
<tbody>
<tr>
<td>21 states</td>
<td>5 states</td>
<td>14 states</td>
<td>7 states</td>
</tr>
<tr>
<td></td>
<td></td>
<td>3 states</td>
<td>1 state</td>
</tr>
</tbody>
</table>

**District of Columbia**

- State has either Family Connects or Healthy Steps sites.
- 8 states have made substantial progress toward implementation.

### Child Care Subsidies

Has District of Columbia made substantial progress implementing child care subsidies with base reimbursement rates (for infants and toddlers in center-based and family child care) that meet the federally recommended 75th percentile using a recent market rate survey? Child care subsidies increase enrollment in formal child care settings and support maternal employment and education.

<table>
<thead>
<tr>
<th></th>
<th>LITTLE TO NO PROGRESS</th>
<th>SOME PROGRESS</th>
<th>SUBSTANTIAL PROGRESS</th>
</tr>
</thead>
<tbody>
<tr>
<td>21 states</td>
<td>20 states</td>
<td>9 states</td>
<td>1 state</td>
</tr>
</tbody>
</table>

**District of Columbia**

- State base reimbursement rates do not meet the federally recommended 75th percentile but the state relies on a recent market rate survey to set rates.
- 1 state has made substantial progress toward implementation.

### Income eligibility as a % of the federal poverty level

- 239% DC (Best state)
- 125% (Worst state)

Is the current base reimbursement rate at or above the 75th percentile of the market rate for:

- Infants in center-based care? No
- Toddlers in center-based care? No
- Infants in family child care? No
- Toddlers in family child care? No

**Year of market rate survey used to establish base rates**

- 2018

**Year of most recent market rate survey**

- 2018
Group Prenatal Care

Has District of Columbia made substantial progress implementing group prenatal care by providing enhanced reimbursements for group prenatal care providers? Group prenatal care increases adequate prenatal care and improves mothers’ physical and emotional health, and has mixed impacts on healthy and equitable births and optimal child health and development.

<table>
<thead>
<tr>
<th></th>
<th>LITTLE TO NO PROGRESS</th>
<th>SOME PROGRESS</th>
<th>SUBSTANTIAL PROGRESS</th>
</tr>
</thead>
<tbody>
<tr>
<td>District of Columbia</td>

<td>1 state</td>
<td>4 states</td>
<td>2 states</td>
</tr>
<tr>
<td>4 states</td>
<td>1 state</td>
<td>8 states</td>
<td></td>
</tr>
</tbody>
</table>

District of Columbia recognizes group prenatal care as an effective strategy.

16 states have made little to no progress toward implementation.

Evidence-Based Home Visiting Programs

Has District of Columbia made substantial progress implementing evidence-based home visiting programs by supplementing federal funding and by serving eligible children at or above the median state value (7.3%)? Evidence-based home visiting programs improve parenting skills, but have less consistent impacts on other outcomes.

<table>
<thead>
<tr>
<th></th>
<th>LITTLE TO NO PROGRESS</th>
<th>SOME PROGRESS</th>
<th>SUBSTANTIAL PROGRESS</th>
</tr>
</thead>
<tbody>
<tr>

<tr>
<td>10 states</td>
<td>15 states</td>
<td>18 states</td>
<td>5 states</td>
</tr>
</tbody>
</table>

District of Columbia state supplements federal funding to implement home visiting programs.

23 states have made substantial progress toward implementation.

See the complete Prenatal-to-3 State Policy Roadmap for detailed information about the impact of each policy and strategy and Methods and Sources for related data sources at pn3policy.org.
Early Head Start

Has District of Columbia made substantial progress implementing Early Head Start (EHS) by supplementing federal funding and by providing income-eligible children with access to EHS at or above the median state value (8.9%)? Early Head Start improves numerous aspects of child-parent relationships, increases participation in good-quality care, and positively impacts language and vocabulary skills and problem behaviors.

<table>
<thead>
<tr>
<th>LITTLE TO NO PROGRESS</th>
<th>SOME PROGRESS</th>
<th>SUBSTANTIAL PROGRESS</th>

26.0% Best state

Early Intervention Services

Has District of Columbia made substantial progress implementing Early Intervention services by using moderate or broad criteria to determine eligibility and by serving children who are at risk for later developmental delays or disabilities? Early Intervention services boost parental self-confidence and satisfaction, and improve children’s cognitive, motor, behavioral, and language development, especially for infants born preterm or low birthweight.

<table>

</tr>
</tbody>
</table>

* Thirteen states either do not report these data in the QRIS Compendium or have no statewide QRIS. This outcome is not ranked.

For more information on the outcome measures, the ranking process, and data quality see Methods and Sources at pn3policy.org. Differences by race and ethnicity are not available due to small sample sizes at the state level.
Health, maternal care, family life, economic security, and early care and learning—the first three years shape the future of every child's life. The Prenatal-to-3 Policy Impact Center at The University of Texas at Austin LBJ School of Public Affairs translates research on the best public investments into state policy actions that produce results for young children and society. Our team of researchers and nonpartisan policy experts works with policymakers, practitioners, and advocates to navigate the evidence of what works, set priorities, act with confidence, and analyze results for continuous improvement. We help connect the complex social, economic, and health needs of families that support effective child development in the earliest years—seeking effective policies for each and looking at how all can work together for the greatest impact.

**Prenatal-to-3 Policy Clearinghouse**
An ongoing inventory of rigorous evidence reviews of state-level policies and strategies that impact the prenatal to age 3 developmental period

**Prenatal-To-3 State Policy Roadmap**
An annual policy guide grounded in evidence that provides states actionable solutions to improve outcomes for all young children

**Prenatal-to-3 Research Exchange**
An opportunity for early childhood stakeholders to exchange ideas and experiences to advance scholarship and evidence informed policymaking

**Building the Evidence Base**
A prioritized research agenda, developed in collaboration with scholars and practitioners, to continue to build a strong and equitable prenatal-to-3 system of care
