A Roadmap to Strengthen Your State’s Prenatal-to-3 System of Care

Grounded in the science of the developing child and based on comprehensive reviews of the most rigorous evidence available, this Prenatal-to-3 State Policy Roadmap provides 12 evidence-based policy solutions that foster the nurturing environments infants and toddlers need to thrive.

The annual Roadmap includes:

- policy profiles that summarize the research and related impacts on child and family outcomes, and the progress states have made towards full and equitable implementation, and
- state profiles that track implementation of each effective Roadmap policy and strategy, and 18 child and family outcome measures that assess the wellbeing of its infants and toddlers.

Prenatal-to-3 State Policy Roadmap

Effective policies impact PN-3 goals and research provides clear state legislative or regulatory action. Effective strategies impact PN-3 goals, but the research does not yet provide precise guidance for state legislative or regulatory action.

● Policy/strategy is aligned with goal in column
 Policy/strategy does not align with goal in column (intentionally blank)

Note: More extensive information on each of the eight PN-3 policy goals can be found in the [Prenatal-to-3 Policy Clearinghouse](#).
