

# 2025 Prenatal-to-3 State Policy Roadmap

## A Roadmap to Strengthen Your State's Prenatal-to-3 System of Care

Grounded in the science of the developing child and based on comprehensive reviews of the most rigorous evidence available, this Prenatal-to-3 State Policy Roadmap provides evidence-based policy solutions that foster the nurturing environments infants and toddlers need to thrive.

### The annual Roadmap includes:

- Policy profiles that summarize the research and related impacts on child and family outcomes, and the progress states have made towards full and equitable implementation, and
- State profiles that track implementation of each effective Roadmap policy and strategy, and 19 child and family outcome measures that assess the wellbeing of its infants and toddlers.

### Few States Are Doing It All, But Many Are Moving Forward

Although no states newly implemented effective Roadmap policies in the last year, many states made progress to improve access to effective policies and strategies.
