

# 2026 Prenatal-to-3 State Policy Roadmap

## A Roadmap to Strengthen Your State's Prenatal-to-3 System of Care

Grounded in the science of the developing child and based on comprehensive reviews of the most rigorous evidence available, this Prenatal-to-3 State Policy Roadmap provides evidence-based policy solutions that foster the nurturing environments infants and toddlers need to thrive.

### The annual Roadmap includes:

- Policy profiles that summarize the research and related impacts on child and family outcomes, and the progress states have made towards full and equitable implementation, and
- State profiles that track implementation of each effective Roadmap policy and strategy, and 19 child and family outcome measures that assess the wellbeing of its infants and toddlers.

### Few States Are Doing It All, But Many Are Moving Forward

Four states fully implemented new Roadmap policies to strengthen their prenatal-to-3 system of care in the last year — Delaware, Maine, Minnesota, and Pennsylvania.
